

## BACKGROUND: CHAPTER 224 OF THE ACTS OF 2012

In August of 2012, the Commonwealth of Massachusetts enacted [Chapter 224 of the Acts of 2012](#), “An Act Improving the Quality of Health Care and Reducing Costs Through Increased Transparency, Efficiency and Innovation.” Chapter 224 has the ambitious goal of bringing health care spending growth in line with growth in the state’s overall economy. It aims to do so through a number of mechanisms, including the creation of commissions and funds, the adoption of alternative payment methodologies, increased transparency for consumers, a focus on wellness and prevention, an expansion of the primary care workforce, health information technology improvements, and health resource planning, among other initiatives. (Read the Blue Cross Blue Shield of Massachusetts Foundation’s summary of the law [here](#).) Many of these tasks will take time to implement and will require legislators and state agencies to make additional decisions.

## IMPLEMENTING CHAPTER 224: KEY AGENCIES

The Health Policy Commission (HPC) is the entity charged with implementing many of the major provisions of Chapter 224. (Information on state progress can be found on the [HPC’s website](#).) In addition to creating the HPC, Chapter 224 created another state agency, the Center for Health Information and Analysis (CHIA), and assigned new responsibilities to existing state agencies. Below is a description of some of the key state agencies and their respective responsibilities associated with implementation of Chapter 224.

### Health Policy Commission (HPC)

The HPC was created by the law as an independent agency residing in but not under the control of the Executive Office for Administration and Finance (ANF). It is governed by a diverse [11-member board](#) with input from an [advisory council](#). In December 2012, [David Seltz](#) was named Executive Director of the HPC. The HPC is funded by the Healthcare Payment Reform Trust Fund until June 30, 2016, and subsequently by an assessment on hospitals, ambulatory surgical centers, health plans, and surcharge payers.

The HPC has several key responsibilities, including:

- Establishing the annual cost growth benchmark (by April 15), monitoring progress through annual cost trend hearings (by October 1), and publishing an annual cost trends report (by December 31);
- Registering provider organizations (RPOs), as well as certifying Accountable Care Organizations (ACOs) and Patient-Centered Medical Homes (PCMHs);
- Conducting Cost and Market Impact Reviews (CMIRs) of material changes to a provider organization’s operations or governance structure;
- Administering the Healthcare Payment Reform Trust Fund and the Distressed Hospital Trust Fund; and
- Overseeing the Office of Patient Protection (OPP).

To govern execution of its statutorily required responsibilities, the HPC created the following committees. Click on the links to see the committees’ members, responsibilities, and meeting information:

1. [Care Delivery and Payment System Transformation \(CDPST\) Committee](#)
2. [Community Health Care Investment and Consumer Involvement \(CHICI\) Committee](#)
3. [Cost Trends and Market Performance \(CTMP\) Committee](#)
4. [Quality Improvement and Patient Protection \(QIPP\) Committee](#)
5. [Administration and Finance Committee](#)

### **Center for Health Information and Analysis (CHIA)**

CHIA was created by the law as an independent state agency led by an Executive Director who is appointed by the attorney general, the state auditor, and the governor for a term of five years; in November 2012, [Aron Boros](#) was appointed as CHIA's Executive Director. This agency is funded by an assessment on hospitals, ambulatory surgical centers (ASCs), and certain purchasers of hospital and ASC services (such as commercial health plans).

CHIA has the following responsibilities associated with Chapter 224:

- Measuring the annual change in total health care expenditures (THCE), which is the basis for measuring the state's performance against the HPC's annual cost growth benchmark;
- Compiling an [annual report on the health care market](#), including analysis of THCE, premiums, total medical expenses (TME), and payment methods;
- Collecting and disseminating data from an [All-Payer Claims Database \(APCD\)](#) to further the work of other state agencies and health care improvement efforts broadly; and
- Supporting the Betsy Lehman Center for Patient Safety and Medical Error Reduction (BLC), previously supported by the Department of Public Health.

CHIA also assumed many of the responsibilities previously under the purview of the Division of Health Care Finance and Policy (DHCFP), including:

- Collecting and analyzing payer and provider data, including monitoring the performance and financial stability of hospitals;
- Managing a consumer health information website;
- Developing a Standard Quality Measure Set; and
- Studying the uninsured and underinsured.

### **Betsy Lehman Center for Patient Safety and Medical Error Reduction (BLC)**

Chapter 224 re-established the BLC as a separate entity that is administratively supported by CHIA. The BLC's Board consists of the attorney general, the secretary of health and human services, the undersecretary of consumer affairs, and the executive director of CHIA. Chapter 224 assigns the BLC a broad mandate to enhance patient safety in Massachusetts through:

- Coordination of state agency efforts on patient safety;
- Research and dissemination activities;
- Provider engagement; and
- Patient engagement.

Although the BLC does not perform a regulatory function, it receives reports of Serious Reportable Events and other mandated provider submissions related to patient safety.

### Health and Human Services Secretariat

The Executive Office of Health and Human Services (EOHHS), MassHealth, the Department of Public Health (DPH), and the Department of Mental Health (DMH), among other agencies, have many important new responsibilities under Chapter 224. These responsibilities include:

- Adopting alternative payment methodologies within MassHealth;
- Convening a number of boards and commissions, including the Health Information Technology Council, the Public Payer Commission, and the Special Commission on Graduate Medical Education;
- Developing a state health plan;
- Administering the Prevention and Wellness Trust Fund; and
- Implementing changes to the regulation of the delivery system, including limited service clinics and determination of need.

EOHHS also manages the Commonwealth's State Innovation Model (SIM) grant, a federal grant from the Centers for Medicare and Medicaid Innovation that helps to support the state's payment and delivery system reform initiatives.

### Office of the Attorney General (AG)

The attorney general may require that any provider, provider organization, or payer produce documents, answer interrogatories, and provide testimony under oath related to health care costs and cost trends, factors that contribute to cost growth within the Commonwealth's health care system, and the relationship between provider costs and payer premium rates. The AG may disclose such confidential information through the HPC's cost trends hearings (see [here](#)). In addition, Chapter 224 provides the AG with new responsibilities, including:

- Appointing three members to the HPC board: a health care consumer advocate, a health economist, and an expert in behavioral health, substance use disorder, mental health services, and mental health reimbursement systems;
- Investigating any provider organization referred by the HPC through the CMIR process described above. Specifically, if the HPC identifies through a CMIR process that an entity 1) has a dominant market share for the services it provides, 2) charges prices for services that are materially higher than the median prices charged by other providers, and 3) has health-status-adjusted TME materially higher than the median for other providers, the HPC shall refer the entity to the AG, who may conduct an investigation to see if the provider organization engaged in unfair methods of competition or anti-competitive behavior in violation of Chapter 93A or any other law, issue a report to the HPC on the findings of the investigation, and, as appropriate, take action under Chapter 93A or any other law to protect consumers in the health care market;
- Intervening to obtain exemptions or waivers from certain federal laws pertaining to provider market conduct, including a waiver or expansion of the "safe harbors" provision from the federal Office of the Inspector General; and
- Intervening at determination of need hearings (see [M.G.L. Chapter 111, Section 25C](#), as amended by Section 71 of Chapter 224).

## CHAPTER 224 TRACKING TOOL

This Tracking Tool seeks to provide a detailed description of key components of Chapter 224, highlighting the progress the state has made in implementing the law. This tool is designed for policymakers, advocates, and other stakeholders who wish to track when and how state leaders may address policy issues that pertain to Chapter 224. The goal is to provide a basic overview and timeline of Chapter 224-related requirements being implemented by state leaders. *This tracking tool is a living document and will be updated regularly. If you have any suggested additions or corrections, please email the Blue Cross Blue Shield of Massachusetts Foundation policy team at [policy@bcbsmafoundation.org](mailto:policy@bcbsmafoundation.org).*

### Columns in the Chapter 224 Tracking Tool

---

**Ch. 224 Topic:** Chapter 224 topics that require action or implementation.

**Ch. 224 Requirements:** A description of what the state law requires.

**Additional Information:** Background information to provide context and/or additional issues that state leaders must consider when making policy decisions.

**State Players:** State entities, agencies, legislators, and other bodies that may be involved with implementing a particular aspect of Chapter 224.

**Timing:** Key dates associated with the implementation process.

**Status Update:** Actions taken or progress that has been made.

### [Glossary of Chapter 224 Terms](#)

---

- ACOs: Accountable Care Organizations
- AG: Office of the Attorney General
- ANF: Executive Office for Administration and Finance
- APCD: All Payer Claims Database
- APMs: Alternative Payment Methodologies
- CHART: Community Hospital Acceleration, Revitalization, and Transformation Investment Program
- CHIA: Center for Health Information and Analysis
- CMIR: Cost and Market Impact Review
- DOI: Division of Insurance
- DPH: Department of Public Health
- EOHHS: Executive Office of Health and Human Services
- HPC: Health Policy Commission
- MCN: Material Change Notice
- PCMHs: Patient Centered Medical Homes
- RPOs: Registered Provider Organizations

Please note: All provisions of Chapter 224 took effect on November 5, 2012, unless otherwise noted in the “Timing” column below.

CH. 224 TOPIC	CH. 224 REQUIREMENTS	ADDITIONAL INFORMATION	STATE PLAYERS	TIMING	STATUS UPDATE
<b>COST CONTAINMENT REQUIREMENTS</b>					
<b>Cost Growth Benchmark</b>	<ul style="list-style-type: none"> <li>Chapter 224 requires HPC to set the target growth rate for total per person medical spending in the state (see THCE, below).</li> <li>The cost growth benchmark is pegged to the growth in the state's economy, or the growth rate of potential gross state product (PGSP).</li> <li>HPC will notify all health care entities (hospitals, physician groups, ACOs, payers) that exceed the cost growth benchmark each year.</li> <li>Beginning in 2015, HPC may require entities that exceed the benchmark to file and implement performance improvement plans, which must identify the factors that led to cost growth and include specific cost-saving measures for the entity to undertake within 18 months.</li> </ul>	<ul style="list-style-type: none"> <li>Chapter 224 set PGSP for 2013 at 3.6%.</li> <li>For calendar years (CY) 2013 – 2017, the benchmark is equal to PGSP.</li> <li>For CY 2018 – 2022, the benchmark is equal to PGSP – 0.5%, but may be modified up to PGSP.</li> <li>For CY 2023 and beyond, the benchmark is set to PGSP but can be modified to any figure.</li> <li>If HPC identifies (through its cost trend hearings, CHIA's annual report, or any other relevant source) a health care entity that is exceeding the health care cost growth benchmark, HPC can require the entity to submit a performance improvement plan. HPC will post on its website the names of entities implementing performance improvement plans.</li> <li>Entities can be fined up to \$500,000 for failure to submit, implement, or report on their performance improvement plans.</li> </ul>	<ul style="list-style-type: none"> <li>HPC</li> <li>ANF</li> <li>House and Senate Ways and Means committees</li> </ul>	<ul style="list-style-type: none"> <li>By January 15 (annually): the Secretary of the Executive Office for Administration and Finance and the House and Senate Ways and Means committees must jointly agree on the PGSP for the coming calendar year.</li> <li>By April 15 (annually): HPC must set the state's health care cost growth benchmark.</li> <li>2015 and beyond: HPC can require performance improvement plans.</li> </ul>	<ul style="list-style-type: none"> <li>For CY 2014, the cost growth benchmark has been set to PGSP, or 3.6%.</li> </ul>

CH. 224 TOPIC	CH. 224 REQUIREMENTS	ADDITIONAL INFORMATION	STATE PLAYERS	TIMING	STATUS UPDATE
<b>Total Health Care Expenditures (THCE)</b>	<ul style="list-style-type: none"> <li>• CHIA must calculate THCE, total annual per person medical spending in the state, used to measure performance against the Cost Growth Benchmark (see above).</li> </ul>	<p>THCE includes:</p> <ul style="list-style-type: none"> <li>• Expenditures from private health insurance, Medicare, Medicaid (MassHealth), and other state programs;</li> <li>• Cost sharing such as deductibles and co-pays; and</li> <li>• Private insurance administrative costs.</li> </ul>	<ul style="list-style-type: none"> <li>• CHIA</li> </ul>	<ul style="list-style-type: none"> <li>• August-September (annually): CHIA publishes annual change in THCE (30 days prior to the HPC cost trends hearings).</li> <li>• CHIA will publish 2012–2013 THCE on September 2, 2014.</li> </ul>	<ul style="list-style-type: none"> <li>• December 2013: CHIA published a <a href="#">methodology white paper</a> describing the calculation of THCE and published preliminary 2011 calculations for illustrative purposes.</li> </ul>
<b>Registration of Provider Organizations (RPO)</b>	<ul style="list-style-type: none"> <li>• Chapter 224 requires HPC to develop and administer a provider registration program.</li> <li>• The RPO database will include detailed information about provider organizations' structure and finances.</li> <li>• Provider organizations will be registered for two-year terms but will submit annual filings to CHIA.</li> <li>• Only registered provider organizations can contract with health plans and third-party administrators.</li> </ul>	<ul style="list-style-type: none"> <li>• Provider organizations with fewer than 15,000 patients or less than \$25 million in net patient service revenue are exempt from the registration process if they are not risk-bearing.</li> <li>• In the first year of the program, only provider organizations that represent hospitals, physician groups, or inpatient and outpatient behavioral health providers are required to register.</li> <li>• All risk-bearing provider organizations (see below) must register, regardless of organization type or NPSR/patient panel.</li> <li>• CHIA will collect additional financial and other data from provider organizations on an ongoing basis.</li> </ul>	<ul style="list-style-type: none"> <li>• HPC</li> <li>• CHIA</li> </ul>		<ul style="list-style-type: none"> <li>• Proposed timeline for registering provider organizations: <ul style="list-style-type: none"> <li>– December 2013: HPC published <a href="#">proposed RPO regulations</a></li> <li>– January-April 2014: Public comment period</li> <li>– April 2014: HPC releases <a href="#">draft Data Submission Manual</a> for public comment</li> <li>– July 2014: Finalize regulations</li> <li>– Fall 2014: Registration set to begin</li> </ul> </li> </ul>
